

MAYEKAWA AUTOMATED CHICKEN AND TURKEY WHOLE LEG DEBONING ROBOT

# TORIDAS/TAKIDAS

### Chicken Whole Leg Deboning Machine “TORIDAS”

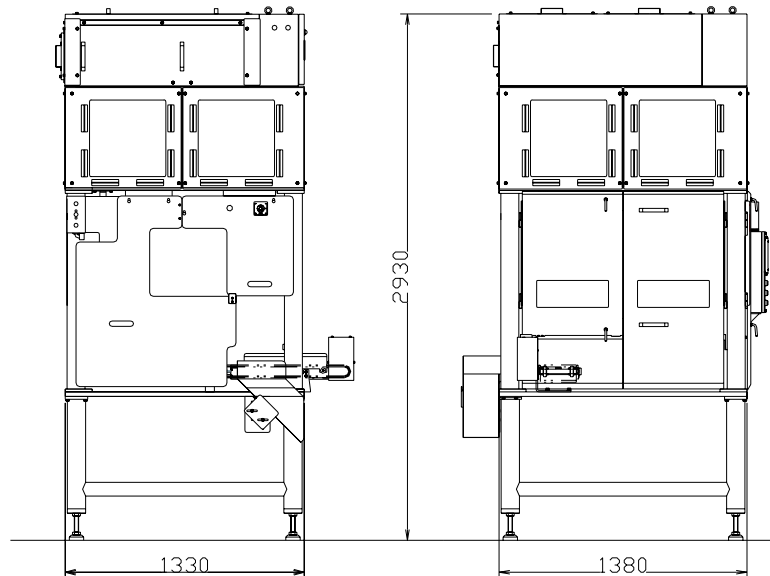

750 units installed worldwide. Automated pre-cut and final separation functions are the standard features. All you have to do is place a chicken leg in TORIDAS, and TORIDAS separates the bone and the leg meat. The yield ratio is as good as when the process is done by hand. By removing human hands from the deboning process, **MAYEKAWA** has succeeded in stabilizing the quality of the product and the yield ratio, as well as improving hygiene.

### Turkey Whole Leg Deboning Machine “TAKIDAS”

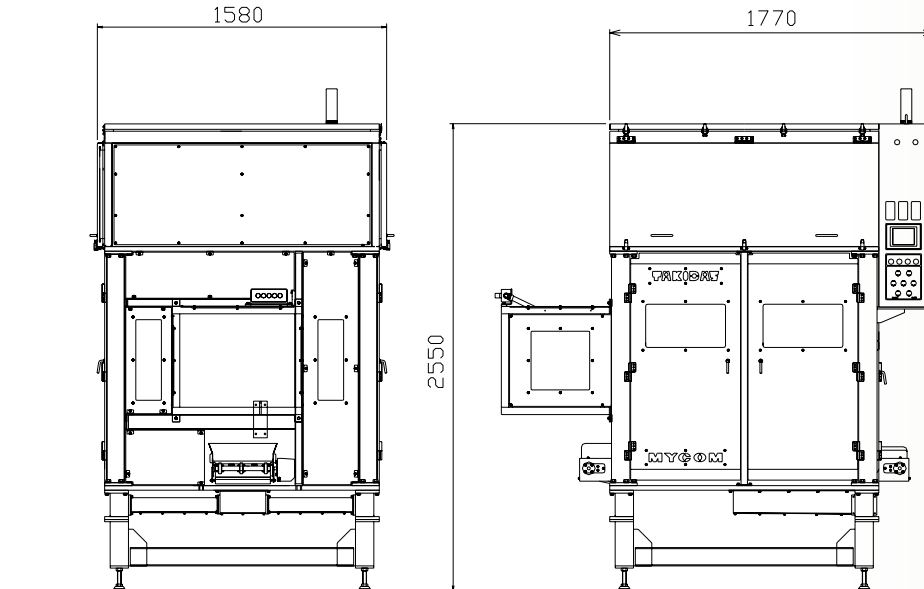

A fully-automated system, providing top quality and yield. Automated pre-cut and final separation functions are the standard features. The deboning process of the whole leg is automated. You will have the meat and the bones separated just by loading the turkey leg into the machine.

### Reference drawings - TORIDAS

## Reference drawings - TAKIDAS
